About Us

Assurant Innovations is a US distributor/wholesaler for industry leading life science and environmental measuring technology equipments. We provide and service the world's most demanding researchers and lab technicians to help solve complex problems.

Core Competency

Fish Freshness Meter (Torrymeter)

- Quantitative analysis of fish freshness
- Used worldwide since 1929
- Regarded as Golden standard and a de-facto standard within seafood industry to measure fish freshness

Fish Fat Meter: Measures fat (lipid) content in fish

- Used in research for lake/sea environment improvement projects to measure proper fish growth
- Determine fish health & growth
- Aquaculture management

Meat Fat Meter: Measures fat content in meat products

- Used to determine meat quality: lean vs. low fat vs fat-free
- Ensure proper meat quality standards & control are being monitored

Differentiator

We specialize in easy to use, portable devices that provides instant & accurate results. These devices are made for all day rugged outdoor use. We take each opportunity to partner and work together with our clients to effectively and efficiently solve complex problems to make a positive change in the world.
